

WaTech Advisory Council Meeting
November 22, 2016

Attendees: Wayne Hall (DSHS), Rose Bossio (DRS), Steve Young (DNR), Ann Bruner (DOL), Dave Kirk (DFI), David Lee for Jennifer McNamara (DOH), Claudia Conner for Scott Emry (DFW), Michael Cockrill (WaTech), Rob St. John (OCIO), Heidi Geathers (WaTech), Jason McKinney (WaTech), Jay Jackson (WaTech), and Laura Parma (WaTech)

Presenters from WaTech: Jason McKinney

Welcome

Laura Parma welcomed the participants and provided an update on an outstanding topic from July.

Update from WaTech - Network Services: Discussion on Ethernet Contracting and Service Delivery Improvement Project

Laura provided an update from Mark Quimby, WaTech. Mark shared with the Advisory Council in July that he has a network project that is reviewing the overall business model for provisioning and procuring circuits. Progress is being made and WaTech has conducted preliminary meetings with vendors in early November. Mark expects to have requirements available to review with the Advisory Council before the January 2017 meeting.

Update on Cloud Enablement, O365, Skype for Business, SharePoint

Jason McKinney facilitated a detailed discussion to review the [Cloud Services Roadmap](#), now available on the [Cloud Enablement Program](#) website. Jason shared that the Roadmap will be updated monthly to the Program site. The discussion included a review of the specific elements that are completed, those that are being worked currently and planned work. WaTech is interested in continued feedback on customer needs in order to align the prioritization of work. [Dave Kirk](#) also provided an update on the review of OneDrive he is facilitating with agencies. The kickoff for this is planned for November 30th. Please contact Dave for more information.

There was also a general discussion to share how agencies are approaching Wireless guest in their deployments.

The next meeting is scheduled for January 24th.
